Liferay DXP (7.2, 7.0, 6.2)

Databases:
MariaDB, MySQL, PostgreSQL, Oracle10g, MongoDB

Web/App Servers:
Tomcat, Apache, JBoss, Jetty

Build Tools:
Maven, Gradle, Ant, IVY

Logging & Monitoring:
log4j, SLF4J

Source Control & Repository:
GIT, SVN, Gerrit, Perforce, Bamboo

Business Process & Low Code Platforms:
Appian, Activiti, Drools

Certifications

- **Liferay DXP 7.1 Certified Professional Back-End Developer**
- **Appian Certified Developer**

Professional Experience

Tech Lead | CIGNEX Technologies Pvt. Ltd.

March 2012 – Present

Key Projects:

- **HCP Engagement**
  - Developed an Appian-based platform to streamline pharmaceutical company interactions with healthcare providers.
- **Quality Docs Sync with iContent Server**
  - Built a web portal to sync content between Quality Docs and iContent Server using Liferay.
- **Back To Office**
  - Developed a workplace health and safety portal for a global pharmaceutical company, focusing on booking systems and health monitoring.

Team Lead | Persistent Systems Ltd.

March 2007 – March 2012

Software Developer | Mudra Communication Pvt. Ltd.

July 2004 – March 2007

Education

Master of Computer Applications (MCA)
Gujarat Vidyapith, Ahmedabad, 2004

Domains & Industry Experience

- **Healthcare**: Developed healthcare portals and apps focusing on patient engagement, HCP management, and health monitoring.
- **Finance & Insurance**: Delivered high-performance insurance portals offering auto and home policies with robust quoting functionality.
- **Media**: Built broadcasting management systems for a leading US media company, automating production deliverables.
- **Telecommunications**: Designed emergency call routing systems based on location for VoIP-based services.

Notable Projects

- **Health Care Portal Suite**
  Liferay-based platform providing a seamless infrastructure for stakeholders in the healthcare ecosystem.
- **Global Retail Portal**
  Developed a collaboration platform for a leading car manufacturer to streamline communication between employees and retailers.
- **Quote Portal**
  Built for a US-based insurance company, this next-generation insurance portal supports multiple policy types and simplifies user experience.
- **Location-Based Emergency Services**
  Developed an emergency call routing application for VoIP services, integrating real-time location data for public safety answering points.
